

Reservoir & Production Management 2017

Tuesday 17. October

HOUR:	DESCRIPTION:
08:30	Coffee and Registration
	Business Environment: What's needed to keep the Norwegian oil production competitive in the global oil market
09:00	Opening and welcome Benedicte Kvalheim, Lars Sonneland
09:10	Even more to gain Arvid Østhus, The Norwegian Petroleum Directorate
09:40	The Ivar Aasen Development - Experience from early days of production Sigbjørn Mastad, AkerBP
10:00	Going Digital - Change the Industry Tina Todnem , Statoil ASA
10:30	Break/Networking
11:00	Reservoir Management in the age of big data Jon Sætrom, Resoptima AS
11:30	Rethinking the Goliat reservoir models: History matching and identification of infill using an ensemble based method Paola Panfili & Gjertrud Halset, ENI Norge
12:00	CO2 - future of The NCS and CO2 storage Eva Halland, The Norwegian Petroleum Directorate
12:30	Lunch
	Cost Effective Field Development and Operation Grete Block Vagle, Trond Rolfsvåg
13:30	A brilliant success story on a massive water shut off job on the Ekofisk field Daniela Arghir, ConocoPhillips
14:00	Avoiding well collision - drilling with your ears wide open Joaquin A. C. Pernigotti, ClampOn AS

HOUR:	DESCRIPTION:
14:30	Upscaling Laboratory Formation Damage Test Data Michael Byrne , Lloyd's Register
15:00	Johan Castberg Field Development - hunting the high value barrels Håkon Brox, Statoil
15:30	A local success story within chemical injection Reid Skjærpe & Tarald Gudmestad, Aarbakke Innovation / TechInvent
16:00	End of day 1
17:00	Aperitiff
17:30	Conference dinner

Wednesday 18. October

HOUR:	DESCRIPTION:
08:30	Coffee and Registration
	IOR / EOR / new technology, and application on both green and brown fields Ying Guo, Sølvi Amundrud
09:00	Effective reservoir management of the Valhall field: Subsurface integration using state of the art visualization tools Nirina Haller, Aker BP Dmitry Shchekotov, Aker BP
09:30	Fishbones; increased productivity in tight carbonate reservoirs Kristian Solhaug, Fishbones
10:00	IOR-Sim: Upscaling of Chemical EOR from lab to field Aksel Hiort, UIS/IRIS
11:00	Break/Networking
11:30	Improve recovery by Managed Gradient Drilling Ola M. Vestavik, Reelwell

HOUR:	DESCRIPTION:
12:00	Lunch
	Monitoring / 4D seismic / field instrumentation Kari Nordaas Kulkarni, Lars Sonneland
13:00	Sand Management- Key to EOR from mature fields Øyvind Heraldstveit, FourPhase AS
13:30	PRM on Johan Sverdrup - a unique Opportunity Maximilian Georg Schuberth, Statoil ASA
14:00	Break/Networking
14:20	Applying Assisted History Matching to Reservoir Simulation for Effective Decisions Vincent Kretz, Repsol Norge AS
14:50	Joint Chalk Research Programme: The collaboration benefits of JCR-7 and some important achievements of the JCR-7 collaboration Finn Engstrom, Maersk Olje og Gass A/S
15:10	End of conference
