

Sign up for the
Reservoir & Production Management Conference 2024

Tuesday 26. November

HOUR:	DESCRIPTION:
08:00	Registration and visit exhibition
08:45	Opening and welcome Emilie Kittilsen, INPEX-Idemitsu Norge and Chair of the Organising Committee
08:55	Significant oil and gas resources on the NCS Nadine Mader-Kayser, Assistant Director Technology, Analysis & Co-existence - Norwegian Offshore Directorate
	Energy Efficient Reservoir Management Moderator:
09:20	Yggdrasil Case Study: Utilizing an Integrated Network Model to Evaluate the Value of Smart Completions Vladimir Volkov - Aker BP
09:40	Oil field drainage with variable low-emission energy supply Alv-Arne Grimstad - SINTEF
10:00	Break and visit exhibition
10:30	Evaluation of Autonomous Completions in Dynamic Simulations Ismarullizam Mohd Ismail, Chief Technology Officer - InflowControl
10:50	“Wind-powered oil production - subsurface challenges and digital solutions” Sarah Eileen Gasda - Centre for Sustainable Subsurface Resources (CSSR), NORCE
11:10	Smart well production experiences on Heidrun Ove Andre Kvandal - Equinor
11:30	Lunch and visit exhibition
12:30	Student papers Sponsor: Harbour Energy

HOUR:	DESCRIPTION:
	<p>Field Development & Operation Moderator:</p>
12:50	<p>Decline curve analysis from a data science perspective Knut Utne Hollund, Equinor</p>
13:10	<p>Coiled Tubing Drilling at Ekofisk Field Anisa Perez & Martijn Henneman - ConocoPhillips</p>
13:30	<p>Can Ensembles Be Useful During Drilling? A Maria Phase 2 Case Study Eugene Dahl - Harbour Energy</p>
13:50	<p>Goliat retro-fit MLT Stig Lie, Sr Reservoir Engineer - Vår Energi</p>
14:10	<p>Highlights from the Kobra East sand injectite- and Gekko thin oil column development - one year post first oil Leif Kristian Tveiterå - AkerBP</p>
14:30	<p>Break and visit exhibition</p>
15:00	<p>Waterflooding management through tracer data visualization Eirik Dirdal - Resman</p>
03:20	<p>Ormen Lange's Next Chapter: leveraging and integrating historical field data for enhanced value creation Teodor Damian - Shell</p>
15:40	<p>Continued Revitalization of Brage Field Saeed Fallah Bolandtaba - OKEA</p>
16:00	<p>Breidablikk field development and start-up Knut Arild Nilsen og Benedicte Vik Oanes - Equinor</p>
16:20	<p>Sum up day 1</p>
18:30	<p>Aperitif</p>
19:00	<p>Conference Dinner</p>

Wednesday 27. November

HOUR:	DESCRIPTION:
08:30	Welcome day 2 Emilie Kittilsen, INPEX-Idemitsu Norge and Chair of the Organising Committee
	Improved Reservoir Management for Decision Making Moderator:
08:35	Keynote Karl Johnny Hersvik, Administrerende direktør - Aker BP
09:05	Fast tracking early phase developments Robert Watts, Sr Principal Reservoir Engineer - Vår Energi
09:25	Use of ensemble reservoir simulation Mahmood Akbar, Advisor Reservoir Engineering - AGR
09:45	Ensemble History Matching with consistent uncertainty modelling Geir Evensen - NCS2030, NORCE
10:05	Break and visit exhibition
10:35	The Drogon case - open sourcing the Fast Model Update (FMU) philosophy Torbjørn Ek, task leader for the NGRM - Equinor
10:55	Data-driven decisions for optimal resource development. Remus Gabriel Hanea, Leading Advisor Assisted History matching and Optimization - Equinor
11:15	Machine learning applications in reservoir simulation and management Dr. Kheireddine Redouane - NTNU
11:35	Ensemble Methodology on Edvard Grieg, ResX Implementation With a Success Kristian Eide-Engdahl, Subsurface Manager - AkerBP
11:55	What do YOU think?
12:20	Closing remarks Emilie Kittilsen, INPEX-Idemitsu Norge and Chair of the Organising Committee
12:30	Lunch and end of Conference
