

The 12th Conference on Field Reservoir Management 2007

Monday 04. June

HOUR:	DESCRIPTION:
08:00	Registration
09:00	Opening/Welcome Gro Aksnes, Statoil ASA, Norway, chair programme committee
	Chairs: Gro Aksnes, Statoil ASA, Norway Lars Sønneland, Schlumberger, Norway
	SubSea Field Developments
09:15	Skarv-Idun development Carole Ross, BP Norge AS, Norway
09:45	Tyrhans field development Fridtjov Ravn Munkvold, Statoil ASA, Norway
10:15	Networking/refreshments
10:45	Ormen Lange reservoir management and future field development Lars Gjerdåker, A/S Norske Shell, Norway
11:15	A few lessons from Mensa gas field, an early subsea development in the deepwater Gulf of Mexico Steve Tennant, Shell International E&P, Houston, Tom Wilson Robert Barnard and Muhammad Razi, Shell EP Co., New Orleans, USA
11:45	Lunch
	Chairs; Astri Fritsen, Norwegian Petroleum Directorate, Norway Arvid Østhus, ConocoPhillips, Norway
	Marginal Fields
12:45	Blane, Rev, Yme and Mime - Re-development of old fields and small new discoveries on the Norwegian Shelf - the challenges in to-days environment Frithjof Øverdal, Talisman Energy, Norway

HOUR:	DESCRIPTION:
13:15	Tor Field - extreme workover of a veteran Erling Bergfjord, ConocoPhillips, Norway
13:45	Successful exploration of a large-scale sandstone injection complex and plans for development - the Volund field, Norwegian block 24/9 Peter B. Rawlinson, Marathon Oil, UK
14:15	Networking/refreshments
	Reservoir Surveillance & Production Optimisation
14:45	Integrated operations within production optimization in Heidrun and Åsgard Elling Sletfjerdings, Statoil ASA, Norway
15:15	Quantitative 4D analysis at the Ekofisk field Per Gunnar Folstad, ConocoPhillips, Norway
15:45	Networking/refreshments
16:00	Valhall - monitoring waterflood performance in depleted fractured chalk reservoir Kevin D. Best, BP Norge A/S, Norway
16:30	Reservoir surveillance - the key to future development on Veslefrikk Erik Vikane, Statoil ASA, Norway
17:00	Modelling of thermal fracturing, scaling, sounding, EOR methods - integrating these studies in reservoir models Fredric Gas, Petroleum Experts (PETEX), UK
17:30	Close day 1
18:30	Departure for Conference Dinner at Flor & Fjære
20:00	Conference Dinner at Flor & Fjære Dinner speaker: Adolfo Henriques, Statoil ASA, Norway

Tuesday 05. June

HOUR:	DESCRIPTION:
	Chairs: Cato Berge, A/S Norske Shell, Norway Ying Guo, TOTAL E&P NORGE, Norway
	Enhanced Oil Recovery
08:30	Revitalizing chemical flooding in updated OG21 strategy Tore Blaker, Hydro, Norway
09:00	Why is injection of seawater into North Sea chalk fields such a great success? Tor Austad, University of Stavanger, Norway
09:30	Ula WAG EOR Masoud Haajizadeh, BP Norge AS, Norway
10:00	Networking/refreshments
10:30	FAWAG - Foam Assisted Water Alternating Gas Harald K. Celius, Markland, Norway
	Green Technology
11:00	In Salah Gas - A major gas development with CO2 storage Pål Ingsøy, Statoil ASA, Norway
11:30	Alternatives to conventional well testing - advantages, disadvantages and field experience Enzo Beretta and Clara Bertolini, ENI S.p.a., Italy
12:00	Lunch
	Chairs: Øistein Bøe, Hydro, Norway Grete Block Vagle, BP Norge AS, Norway
	New Visions of Future Reservoirs
13:00	Breaking new ground in reservoir management Anna Aabø, IRIS Research, Norway
13:30	The future of digital oil fields is now. Adolfo Henriques, Statoil ASA, Norway

HOUR:	DESCRIPTION:
14:00	How to achieve improved production with an integrated workflow oriented production management solution Fernando Gutierrez, Schlumberger, Norway
14:30	Closing Grete Block Vagle, member of the conference committee
14:45	End Conference
