

Offshore Pipelines and Risers

-Smart and Innovative Solutions-

13 - 14 October 2020

Trondheim

The traditional two-day Offshore Pipeline and Risers conference will take place this October!

The Norwegian Petroleum Society (NPF) will adapt to advice and guidelines given by Government regarding the Covid-19 pandemic. We hope to be able to host the conference in Trondheim as planned in combination with a live stream from the conference for those unable to attend physically.

In the event of restrictions on travel or travel bans, we will allow speakers to present remotely via videoconference. We have therefore extended the abstract deadline so please submit Abstracts for your latest Smart and Innovative Solutions related to Design, Installation and Operation of Offshore Pipelines and Risers.

Extended Abstracts DEADLINE 1st June 2020

Interested speakers are invited to submit an abstract (~300 words) describing the main ideas of their presentation. Abstracts should focus on technical/managerial classifications, R&D, new technologies or recent project/case studies. Joint presentations between pipeline operators and technology providers are welcome.

Each speaker gets a presentation time of 25 minutes. All presentations will be made available online for the conference attendees. Speakers get 50% discount off conference fee. Papers are not required.

- Conference language: English.
- Abstract to be submitted to: Tonje Raknes (NPF), Tonje.Raknes@npf.no
- Deadline for abstract submission: 1st June 2020
